ABOUT ME

I'm a technology enthusiast passionate about the intersection of data and web development. Committed to continuous learning, I seek to learn every day the ability to find creative solutions and am always in search of stimulating challenges. My aim is to contribute to innovative projects, combining my background in computer engineering with my passion for web development. I'm excited to collaborate in dynamic teams and continue growing professionally.

EXPERIENCE

Pie / Backend Developer (Intern)
January 2024 - Present
Currently interning with the artificial intelligence team, specializing in backend tasks, focusing on data engineering responsibilities.

Federal University of Ceará / PIBIC Scholarship Recipient
April 2022 - January 2024
Contributed to the "Human-Machine Interface (HMI)" project, aiming to assist people with disabilities in computer usage.

Loading Jr Development / Web Developer (Volunteer)
June 2021 - December 2022
Developed and maintained web applications, ensuring functionality and user experience optimization.

EDUCATION

Computer Engineering / Federal University of Ceará
July 2024
Bachelor in Computer Engineering.

SKILLS

- Continuous Learning
- Flexibility
- Team Collaboration
- Organization
- Critical thinking
- Problem Solving

ACTIVITIES

In my free time, I love diving into books, binge-watching series and movies, and exploring podcasts on various topics. This eagerness to learn new things keeps me always curious and ready for new challenges. Additionally, I'm part of the TAE group (Assistive and Educational Technologies) at the Federal University of Ceará – *campus* Sobral, where I engage in cool projects and keep discovering more about what interests me.
